

The AirgainConnect Advantage:

- The first and only antenna-modem built for FirstNet® MegaRange™, the high-power user equipment (HPUE) solution on Band 14
- Integrates a 31dBm high-power modem with omnidirectional LTE antennas
- Ruggedized antenna-modem includes Wi-Fi and GPS/GNSS antennas
- Certified to run on all AT&T bands

Benefits:

- 2x greater range results in more reliable wireless connectivity
 - Improves safety for EMTs
 - Improves and extends connectivity for CAD, EPCR, and Telemedicine
- Reliable connectivity enables treat-in-place medical care and reduces hospital transports
- Secure connectivity for voice communications and Telemedicine en route to hospitals
- Improves and extends connectivity in challenging coverage areas
- Increases coverage, throughput, and building penetration
- Easy installation, plug in and turn on
- Connects to router or directly to laptop via ethernet
- Eliminates signal power loss over coax cables
- Wi-Fi and GPS/GNSS optional antennas
- Compact 6-in-1 footprint
 - LTE x3, Wi-Fi x2, GPS x1

AIRGAINCONNECT® AC-HPUE™
