

The AirgainConnect Advantage:

- The first and only antenna-modem built for FirstNet® MegaRange™, the high-power user equipment (HPUE) solution on Band 14
- Integrates a 31dBm high-power modem with omnidirectional LTE antennas
- Ruggedized antenna-modem includes Wi-Fi and GPS/GNSS antennas
- Certified to run on all AT&T bands

Benefits:

- Improves employee safety
- Improves dispatch efficiency
- Improves and extends situational awareness and communications
- Improves disaster recovery team safety and coordination
- Improves route planning, reducing re-rolls, and mileage
- Reduces or eliminates drive-backs
- Enables downloading technical documentation while en route
- Improves and extends remote asset monitoring and security
- IP67 rated, pole-mount NEMA enclosure for SCADA
