

AC-Fleet™ 5G Vehicle Gateway

All-in-One 5G Connectivity for
Mission-Critical Fleets

AC-Fleet™ is a compact, ultra-rugged 5G vehicle gateway that combines a modem, Wi-Fi 6 router, GPS/GNSS, and high-performance antennas into a single, low-profile unit. No separate external antennas. No RF cable loss. Just fast, reliable connectivity — ideal for public safety and mission-critical fleets.

APPLICATIONS

- **Public Safety** – Police, Fire, EMS
- **Government & Municipal Fleets**
- **Utilities & Field Services**
- **Transportation & Logistics**
- **Transit & Education**

Why AC Fleet?

- ✓ Combines Router + Antenna in One Unit
- ✓ Eliminates RF Cable Loss
- ✓ Multi-Carrier eSIM Support
- ✓ Built for Harsh Environments
- ✓ Easy to Install and Manage

KEY BENEFITS

Maximum Performance — No signal degradation from RF cables

Faster Deployments — Compact, integrated design

Future-Ready — Multi-network connectivity & carrier flexibility

Rugged & Reliable — Built for extreme conditions

Low TCO — Less hardware, less hassle, lower cost

KEY FEATURES

- 5G modem, Wi-Fi 6, GPS/GNSS, and antennas
- Low-profile 2" housing (IP67/IP69K rated)
- Preloaded eSIM with supports up to 4 carrier profiles
- Local web UI and remote AC-Cloud management
- Single power and Ethernet cable
- Up to 5-year limited warranty with cloud subscription
