

## MULTIMAX™ 5G

The Industry's Most Rugged, Versatile and Low Profile Shark-fin Antenna

MULTIMAX™ 5G delivers high-performance LTE and 5G connectivity in a rugged, IP67/IP69K-rated, Shark-Fin style design built for fleet and public safety vehicles. With up to 7 integrated elements, it supports a wide range of vehicular routers and modems for reliable mobile connectivity.

### HIGH PERFORMANCE

#### Highly efficient and future proof with 5G & Wi-Fi 7

- Powerful MIMO technology
- Up to 2 x LTE/5G (600 MHz - 6 GHz) elements
- Up to 4 x Wi-Fi 6/6E/7 (2.4 & 5-7 GHz) elements
- Optional GNSS element for global positioning

### SLEEK & RUGGED

#### Built to withstand the toughest environments

- IP67 and IP69K ingress protection
- Resistant to vibration, hot, cold, ice, salt, dirt, car washes, and tree branch sweeps
- Traditional shark-fin styling
- Ultra-low profile for covert operations
- Available in both black and white color
- Industry best 5-year limited warranty

### VERSATILE

#### Maximum flexibility to meet your needs

- Compatible with most vehicle routers and modems
- EZConnect™ harness enables quick cable swaps
- Performs well even on non-metallic surfaces
- Pre-attached mounting foam fits any vehicle roof
- Optional whip antenna adapter available
